Fiesta Americana
Condesa Cancun
Completes First
Phase of Renovation

Since May of last year, Fiesta Americana Condesa Cancun has been undergoing renovations in order to modernize guest accommodations. Maintaining Mexico's warm look and feel, the resort has entirely upgraded guests' experience by renovating over 500 premium rooms. The resort has updated the rain showers, added wooden floors, sped up the Wifi-connection and upgraded the USB plugs, as well as installed new décor using local materials such as conchuela, a shell stone made up of compact marine shell that allows rooms to keep a cool temperature. The resort has also enhanced safety features by installing hurricane-proof windows and electronic lock doors with a proximity key. These enhancements serve to modernize Fiesta Americana Condesa Cancun and allow guests to enjoy the recently renovated premium rooms.

These upgrades are not limited to the interior of the property, and also include seven new guest elevators, modern indoor gardens and restored wooden balconies and corridors to provide guests and visitors with a refreshed experience when transitioning through the property's areas. The last phase of the renovation is currently underway and is expected to be completed by the end of April.

In order to complement Fiesta Americana Condesa Cancun's renovations and celebrate Presidents Day, La Colección is offering its guests a limited time only President's Day Sale. Guests can enjoy 50% off bookings from February 12 - 21, 2017, with a travel window of February 12 – December 21, 2017.
